SUMMARY

Third-year Information Systems Engineering undergraduate at SLIIT with experience across the full Business Analysis lifecycle: requirements elicitation, requirements management, stakeholder interviews, stakeholder management, user story writing, gap analysis, business case development, BRD/SRS documentation, business process modeling (BPMN & UML), business process reengineering, process mapping, requirement traceability matrix (RTM), MoSCoW prioritization, change management, wireframing, user acceptance testing (UAT), risk management, and KPI-driven outcome tracking. Delivered 8 projects in banking, healthcare, e-commerce, and library management domains. Skilled at translating business needs into clear technical specifications, maintaining requirement traceability, collaborating with cross-functional stakeholders, and supporting data-driven decisions with SQL, Excel, Power BI, and data modeling. Seeking a Business Analyst internship (secondary interest: Systems Analyst / Data Analyst) to contribute to requirements gathering, business process improvement, and stakeholder collaboration.

KEY PROJECTS (INDIVIDUAL)

RentLens - Smart Rental Decision & Tenant Risk Analysis Platform

Business Analyst, Systems Analyst & Data Analyst | Individual Project

Jul 2026 - Aug 2026

- Designed a transparent Rental Value Score (RVS) using a 4-factor weighted formula (price, distance, facilities, reviews) to evaluate rental fairness
- Implemented 4 core features property comparison, budget-based recommendation, interactive map search, and a market analytics dashboard
- Gathered requirements, authored the SRS, and planned the system architecture and data model across 3 workstreams: Business Analysis, Systems Analysis, and Data Analysis

Tech: React.js, Spring Boot, Java 21, MySQL, Leaflet.js, Recharts | [GitHub Repo](#)

NovaBank-LoanSphere - Digital Loan Origination & Account Opening System

Software Developer & Business Analyst | Individual Project

April 2026 – Jun 2026

- Authored complete Software Requirements Specification (SRS) and developed the business case for a CBSL/FIU-compliant digital banking platform supporting Digital Account Opening and multi-product loan origination (Personal, Home, Vehicle, SME).
- Performed business process modeling and business process reengineering of end-to-end workflows covering e-KYC, credit scoring, maker-checker approval, e-signature, and Core Banking System integration; defined UAT scenarios and risk controls for key loan flows.
- Defined functional & non-functional requirements, applied change management practices for process updates, and implemented Role-Based Access Control (RBAC) with JWT authentication and AES-256 encryption

Tech: Java, Spring Boot, React.js, MySQL, REST APIs, JWT, Spring Security | [GitHub Repo](#)

LibraryHub - Online Library Management System

Software Developer | Business Process + Data Analytics | Individual Project

Jan 2026 - Apr 2026

- Digitized 3 core library operations (book issue/return, reservations, inventory management), streamlining workflows and driving measurable process improvement
- Established role-based access control for 4 distinct user roles (Students, Faculty, Librarians, Admins) reflecting real university library workflows
- Developed operational dashboards with 4 live KPIs (daily issues, returns, overdue items, pending reservations) and Chart.js analytics on book popularity and borrowing patterns

Tech: Java Spring Boot, Spring Security, JWT, MySQL, React.js, Vite, Chart.js, REST APIs | [GitHub Repo](#)

Global Superstore Sales Analysis & Dashboard

Data Analyst | Individual Project

Jan 2026

- Cleaned and transformed a 51k+ row global retail dataset (handled missing values, date parsing, and created derived metrics such as Profit Margin %).
- Built interactive Power BI dashboards with KPI cards (Total Sales, Total Profit, Overall Profit Margin), category & segment analysis, and top product rankings.
- Designed two filterable pages (Overview & Deep Dive) enabling dynamic insights by Region, Segment, Category, and Year.

Tech: Python (Pandas), Power BI, Excel | [GitHub Repo](#)

LankaThread - Online Fashion Store (E-Commerce Platform)

Core Modeling & System Design Project | Individual Project

Nov 2025 - June 2026

- Documented functional & non-functional requirements via user stories for Customer and Admin actors, and modeled 3 BPMN workflow diagrams for core order flows
- Modeled a 5-diagram UML suite (Use Case, Class, Sequence, State, Component) and specified REST API requirements across 6 domains (Products, Inventory, Orders, Customers, Payments, Promotions)
- Delivered a 4-screen high-fidelity Figma prototype (product listing/detail with size/color variants, cart, checkout) and a MySQL scheme supporting product variants, orders, customers, and promotions
- Localized for the Sri Lankan market: LKR pricing, COD as the primary payment method, WhatsApp support integration, and mobile-first design

Tech: Requirements Gathering, BPMN, UML, REST API Design, MySQL, Figma | [GitHub Repo](#)

GROUP PROJECTS

- **PrimeMedical - Web-Based Doctor Appointment & Patient Management System** - Y2 S2 group project, 6-member team (Agile Scrum), 14 weeks delivered a 6-module system (Appointment Management, Patient Records, Prescription & Pharmacy, Doctor Consultation Workflow, Billing & Payments, Reports & Analytics) for a private doctor's channeling center with pharmacy. [GitHub](#)
- **Lanka Health Insurance -Web-Based Health Insurance Management System** - Y2 S1 group project end-to-end platform for digital customer enrollment, policy management, and claims processing. Tech: Java 21, Spring Boot (Web, Data JPA, Security), Thymeleaf, MySQL, Tailwind CSS. [GitHub](#)
- **TuitionConnect - Home Tutor Booking Platform** - Y1 S2 group project built a platform connecting students with tutors for search, booking, and profile management, using a Binary Search Tree for tutor storage and Merge Sort for subject-based sorting. Tech: Spring Boot, Java, JSP, Tailwind CSS. [GitHub](#)

EDUCATION

BSc (Hons) in Information Systems Engineering

2024 -2028 (Expected)

Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka | Currently 3rd Year, Semester 1 | GPA: 3.11

G.C.E. Advanced Level (A/L)

2020 - 2022

Saranath College, Kuliyaipitiya, Sri Lanka | 1 C, 2 S Passes

G.C.E. Ordinary Level (O/L)

2009-2019

St. Joseph's College, Kuliyaipitiya, Sri Lanka | 6 A's, 2 B's, 1 C

SKILLS

Business Analysis: Requirements Gathering • Requirements Elicitation • Requirements Management • Stakeholder Interviews • Stakeholder Management • User Stories • Use Cases • BRD / SRS Documentation • Requirement Traceability Matrix (RTM) • Gap Analysis • Business Case • Business Process Modeling • Business Process Reengineering • Process Mapping • BPMN • UML • MoSCoW Prioritization • Change Management • Risk Management • Wireframes • User Acceptance Testing (UAT) • Functional & Non-Functional Requirements

Data & Analysis: SQL • Excel (Advanced) • Power BI • Python • Data Modeling • KPIs & Metrics • Data Visualization • Business Process Analysis

Soft Skills: Stakeholder Communication • Cross-functional Collaboration • Problem Solving • Analytical Thinking • Documentation

Technical: Java • Spring Boot • React.js • MySQL

Tools & Ways of Working: Git • Jira • Trello • GitHub • Agile/Scrum

CERTIFICATIONS

- **IBM Business Analyst Professional Certificate** - In Progress, Coursera (business analysis fundamentals, process modeling, requirements gathering, stakeholder engagement, systems analysis)
- **Google Business Intelligence Professional Certificate** - In Progress, Coursera (data modeling, visualization/dashboards, SQL, business decision-making)
- **IBM Data Analyst Professional Certificate** - In Progress, Coursera
